RHINELANDER WISCONSIN, THURSDAY, OCTOBER 3, 1912

TERMS-\$1.50 IN ADVANCE

DIXIE CHORUS ON MONDAY, OCT. 21

First Number Of The Entertainment Course Is A Big Attraction

The first number of the Rhinelander Entertainment course, an extended write-up of which appears elsewhere in this issue, will be the Dixie Chorus which comes to the city Monday, October, 21.

This will without doubt be one of the best attractions of the season. Elaborate press notices have been given in the company wherever it has appeared.

The troupe consists of eight people trained by Ralph Dunbar of the famous quartette, which bears his name. The voice character in his rendition will take the part of the old-time colored preacher and other familiar characters of the southland. One thousand dollars worth of scenery is carried.

The evening's entertainment is known as "The Epic of the Negro" and much of it is rendered in the pleasing form of song and cantillation. Much of humor and light sentiment is woven into the stately movement because even the lash and shackles were never able to break the laughter of the Negro's heart.

This entertainment is also presented as an effort to do justice without extravagance and to voice an appreciation of the heroic efforts of that Moses of his people—Booker T. Washington, and the Tuskegee Institution which has become the Palestine to which he is leading a singing race.

Mr. Coleman, the voice character with this company is a graduate of Iowa State College and won first prize in intercollegiate oratorical contest of nine states.

ONEIDA IS REPRESENTED

In The Big Upper Wisconsin Agricultural Exhibit

Ozella county is represented in the Upper Wisconsin exhibit which is being shown at many of the big fairs throughout the country.

The exhibit was taken to the great livestock show at Sioux City, Sept. 16-21, in competition with the Canadian, the Saskatchewan, the Great Northern railway and other exhibits, but took first award. At this show they have a class which includes all exhibits that come from outside the state of Iowa and it is in this class that the Wisconsin exhibit competed.

The upper Wisconsin exhibit scored 910 points out of a possible 1000 points. It included all the crops common to Wisconsin and won all along the line.

An exhibit will be taken to the Illinois state fair, October 4-12. Wisconsin has shown at Springfield during the last three years and has been in a class by itself.

A POPULAR STORE

Art needlework is of great interest to all classes of women and is holding their attention more than ever before. It is a useful and the beautiful work now being done by the scores of Rhinelander women is a wonder. Crusoe Needlecraft Shop the headquarters and center of attraction for this line of industry in this section is constantly thronged with enthusiastic women and girls and children viewing the beautiful showings of finished pieces, the newest importations in foreign handwork and making selections of stamped goods and threads for the work which so pleasantly employs their leisure moments. As this establishment is remarkably well equipped to give practical demonstrations in all kinds of art needlework and teach all the stitches anyone may become proficient in the art right here at home. A visit to this popular store will be of absorbing interest at any and all times.

BOWLING SEASON BEGINS

Lawrence Alleys Open To Patrons Saturday Evening

The bowling season in Rhinelander opened Saturday night at the Lawrence alleys on Stevens street under favorable conditions. The alleys were patronized constantly until after midnight and many of the old time bowlers of the city were present. The indications are that the sport will be more popular here this season than ever before.

The Lawrence alleys are in first class shape, Mr. Lawrence having expended both time and money during the summer in improvements. He has purchased a number of the latest Mineralite regulation balls and added other new equipment.

Bowling teams are now organizing and it is expected that some interesting match games will be bowled here during the winter. It is also planned to secure games with outside teams from Antigo, Merrill, Wausau and other neighboring cities.

SERIOUS FREIGHT WRECK AT SIDNEY

14 Cars Of Wheat and Flour Leave Track On Soo Line Delaying Traffic

Friday was a freak day for railroad wrecks on this division of the Soo line. There were three accidents of this kind, all derailments. Two were of slight consequence but one which occurred near Sidney, east of Rhinelander, resulted in serious damage.

Fourteen cars of a freight train left the rails and toppled into a ditch at Sidney at 4:35 o'clock Friday morning. It is reported that the wreck was due to a broken rail. The third car behind the engine went off the track and thirteen other cars followed. Seven cars were loaded with wheat, six with flour and one was empty. The train was in charge of Wm. Foster, conductor, and John Swar, engineer. Only one of the train crew was hurt, Herman Kennedy, who jumped from the cupola of the caboose. His injuries were only of a minor nature. The wrecking crew from Gladstone was at Lady Smith at the time replacing a derailed locomotive and it was some time before they reached the scene of the Sidney wreck. Traffic on the division was considerably delayed.

Two derailments at points west of this city delayed Soo line passenger train 8½ several hours Friday evening.

RELIC OF REVOLUTION

J. W. Strope, brother of Mrs. D. J. Cole and Frank Strope of this city, has in his possession at Stevens Point a powder horn that was used in the war of the Revolution. The horn was carried by Stephen Wright and has been handed down through generations of the Wright family.

The horn is embellished with four etchings, two of which consist of a large and small representation of a ship. Another represents the head of a soldier and the fourth is a representation of the moon and stars. The date 1776 is in Roman numerals LXXVI under the head of the soldier. It is a valuable and interesting relic.

"RUBE" ROONEY HERE.
Frank Rooney, who for two seasons was the crack pitcher on Rhinelander's former salaried base ball team, spent a few days in the city this week visiting his old manager, Chas Bellet, and other friends. "Rube" just finished the season with a North Dakota team and was on his way to Cleveland, Ohio, his home. Frank was up to his old form this last year and his work on the mound was given favorable mention in many news papers.

TO SHOW SAFETY APPLIANCES HERE

Industrial Commission Brings Display To This City Next Week

Deputy J. A. Norris, of the Wisconsin Industrial Commission, was in the city Monday arranging for the commission's exhibit of safety appliances and devices for manufacturing plants. It is a photographic display and consists of 1200 photographs. The exhibit will probably be held in the council room of the city hall all next week, afternoons and evenings. Mr. Norris and his assistants will be in charge and lectures will be given. The public is urgently requested to see the exhibit, especially owners of industrial institutions and men who work about machinery.

The exhibit is classified and covers a wide scope. Safeguards for us in all kinds of plants, etc., are shown. The exhibits are classed as follows:

Exhibit No. 1 covers mines, boiler and power stations.

Exhibit No. 2, Electrical machinery, foundries and emery wheels.

Exhibit No. 3, Forge shops, boiler shops, machine works.

Exhibit No. 4, punch presses, planers and lathes.

Exhibit No. 5, lathes, milling machines and drill presses.

Exhibit No. 6, wood working industry—logging, saw mills, veneer mills, wood planers.

Exhibit No. 7, wood working industry, stickers, jointers, tenors, shapers. In connection with this exhibit a safety device is shown in one of the Oshkosh factories, covering the exposed parts of a machine that had injured a man, and cost the company \$6000 for damage claims. The guard placed there cost \$1.75, fifty cents for material and a dollar twenty-five cents for labor. Had it been on the machine before the accident, the injury and money cost would not have followed.

Exhibit No. 8, wood working industry—band saws, circular saws, swing saws, boring machines.

Exhibit No. 9, wagon shops, paint shops, elevators, tanneries.

Exhibit No. 10, cranes, platforms, stairways, railroads and doors.

Exhibit No. 11, ladders, trucks, hammers, shafting, steel mills.

Exhibit No. 12, steel mills, sanitation, miscellaneous.

TAG DAY SATURDAY

Woman's Club Will Raise Funds For The Library

Saturday, October fifth is Tag Day. The Rhinelander Woman's Club is employing this method to raise money toward an endowment fund for our public library.

There is no institution in our city more widely beneficial than the library and none more deserving of your liberality on Saturday next.

The club will greatly appreciate your willingness to be tagged and your generosity.

Come on down town and see the fun.

CLOSE BAKER SHOP

Gustave Boettger, who has for the last year conducted the Palace Bakery at 17 Brown street, left the city quietly several days ago and no one here has knowledge as to his whereabouts. Mr. Boettger not only left the city but also left some unpaid bills behind him and the creditors have taken possession of the goods now in the store. Aside from a small assortment of stale cakes and a few canned goods the stock is of little value.

It is seldom that one hears of a baker falling in business as he generally knows how to make the "dough." Mr. Boettger evidently kneads (needs) the "dough."

Hurrah!—Tag Day is Saturday.

WOMAN'S CLUB MEETS

Interesting Session Is Held at Library Tuesday

The Woman's Club held its first meeting Tuesday, Oct. 1, at the club rooms, where an interesting program was given. The study of music is to be continued and in addition, "Time Topics" are to be a feature of the work for the coming year. These topics are supposed to be announced two weeks before so that the club ladies may inform themselves and enter into discussion, the leader being allowed five minutes for the presentation of the topic.

Mrs. Reardon read a short article on medical inspection in schools. Much interest was shown and steps were taken toward a combined movement along this line in our city. It was referred to the Educational Committee. The musicians for the afternoon were Saint-Saens and Chaminade. Mr. Ball gave an able talk on their lives and works. Musical selections were rendered by Mrs. Hampton, Miss Cook, Mrs. Sawtell and Loretta Stoddard, in addition to the records on the phonograph. A social hour followed.

PERKINS-GODFREY BOUT IS CLEVER

Two Fast Middleweights Box 10 Rounds To Satisfaction Of Crowd

For ten rounds Billy Perkins, of this city and Art Godfrey of Minneapolis, middleweights exchanged courtesies before a fair sized crowd of enthusiastic fans at the Grand Opera House Friday night. It was the general expression of those at the ring side that the bout was the fastest and cleanest ever staged in this city.

While no decision was given Padre Larzer, referee, stated that the result was a good draw in his opinion, neither contestant scoring a point above the other. In the estimation of many who witnessed the bout Perkins had the best of the encounter. If a hairline distinction could be made.

Godfrey is one of the most efficient ring generals to ever appear in Rhinelander. He has a telling punch and gets about with the agility of a cat. But in Perkins he had an opponent who was not to be easily dealt with. Billy was on to all little games of the Minneapolis boy and was never caught napping. It was evident that Godfrey tried hard for a haymaker but he might have battered away on a stone wall. Perkins was in prime condition and showed the effects of his rigid training at Barnickel's gym. He succeeded in landing many terrific blows and was very active in foot work.

Everybody in attendance appeared well satisfied with the contest.

Kid Gleason of this city and Nap Bruly of Two Rivers went six fast rounds as a preliminary. Both boys performed nicely and displayed ability as boxers.

King and Clark furnished amusement for the crowd in their farce. It was Clark's first appearance in the roped arena and his antics were laughable.

INTEREST HERE IN SERIES
Much interest is being manifested by the base ball fans in this city in the coming series between the New York Giants and the Boston Red Sox for the world's championship. The opening game will be played in New York City on October 8.

Hugh Donohue, proprietor of the Oneida, has arranged for telegraphic reports of the series to be received by innkeepers in his place of business. There is no little betting here on the outcome of the series.

Seven games will be played in all which will alternate between the cities of New York and Boston. The teams are about evenly matched.

MASTER PLUMBERS COMING TO CITY

Wisconsin Sanitary & Benevolent Club Meets Here Next Tuesday

The master plumbers of the Central Wisconsin Sanitary & Benevolent Social Club will meet in Rhinelander, Tuesday, October 8. At the last district meeting of the association held at Waupaca, George Meekma, of this city, extended the members an invitation to come to Rhinelander. By a unanimous vote of all present, Mr. Meekma's invitation was accepted.

George F. Reeke of Green Bay state president of the association and Frank Farrell, secretary of the Duluth Plumbers Exchange, will be present at the meeting here.

It is anticipated that nearly a full attendance of members will attend the gathering as many matters of vital importance to every master plumber will be up for discussion.

In securing this meeting for Rhinelander Mr. Meekma is entitled to credit. It will be the means of bringing a large number of strangers here and in this respect will be an efficacious advertisement for the city. Mr. Meekma is a citizen with the right spirit; he believes in boosting for his home town whenever the opportunity presents.

THREE ACCIDENTS IN WAUSAU GAME

Local Team Is Crippled By Injury Of Players and Defeat Results

At Wausau Saturday afternoon the Rhinelander High school football team lost its second game this season when they stacked up against the strong High school eleven of that city. 67 to 0 was the score from which it can be readily seen that the game was of a one sided nature.

The Rhinelander team was badly crippled by the loss of Gager, right tackle, and Gleason, left end, who were injured in the game with Tomahawk the week preceding and were unable to play.

In the first quarter both Lewis and Hildebrand of the local squad were put out of commission due to injuries. Both were rendered unconscious and carried off of the field. They were unable to participate in the rest of the game. At the beginning of the second quarter Clark, another Rhinelander player, sustained a broken nose and was generally battered up. This left the team in a very weak condition as Lewis and Hildebrand were the only two quarter backs and there was no half back to take Clark's place.

The game was all Wausau's after these men were removed and ended with the aforesaid score.

The Rhinelander Highs have been playing in hard luck thus far this season, but they expect to win against the Ironwood team here next Saturday if conditions are favorable. The prospects are that the full line up will be in this game and a good contest is looked for. The public is urged to attend and by their presence encourage the home boys on to victory.

NEW STORE OPENS

D. H. Hart's new store opened Saturday. Crowds of shoppers thronged the place throughout the day and the sales force was kept continually busy from early morning until late at night. The business has since been brisk and Mr. Hart feels well pleased. He has an attractive store with a large stock of merchandise.

SOME FISH YARN

Three Lakes Has a New One.—Can You Beat It?

The best fish story of the season comes from Three Lakes. The tale was sworn to before a justice of the peace by John Stahl, a witness. John Barry, a Chicago banker, was the angler.

Barry was fishing with a small hook for bait. A minnow became fastened on the hook. A one pound black bass spied the minnow and grabbed him whereupon a large "musky" observed Mr. Bass and swallowed hook, minnow and bass. By careful maneuvering and expert skill Barry landed the tiny trio—three fish on one hook.

CO. COMMITTEE ELECTS OFFICERS

Republican Chairmen Meet At Court House Saturday

The members of the republican county committee met at the court house Saturday afternoon at 3 o'clock at the call of the former county chairman, C. H. Roepcke. Fifteen of the twenty-four town and ward chairmen were present at roll call. The organization elected the following officers:

C. H. Roepcke, County Chairman.

W. V. Reed, Secretary.

George Jewell, Treasurer.

The following committeemen were chosen:

Assembly—Olaf Goldstrand, this city; J. P. Sorenson, Cassian.

Congressional Committeeman from Oneida Co., F. A. Lowell.

The following executive committee was chosen: C. H. Roepcke, W. V. Reed and Frank Peeler.

It was moved and carried that if state central committee call a joint meeting with county committeemen, that Chairman Roepcke attend.

Meeting adjourned to meet with republican county candidates time to be set by the executive committee.

A STRONG PRODUCTION

The management of the Opera House announces as the attraction "The House of 1000 Candles" on Oct. 11. The original New York production of "The House of a Thousand Candles", a play founded upon the novel of Merlin Nicholson, by George Middleton and produced at Daly and Hackett theaters in New York city for nearly an entire season.

The dramatist has succeeded in translating to the stage the story without loss of dramatic interest or value. It has been extremely successful from the first performance. The action moves at a rapid pace, and the scenes succeed one another in logical and progressive order; it is a strong, virile drama, with a plausible, consistent, convincing plot, that can be easily understood and enjoyed by one who is a stranger to the book as by one who has read the fascinating tale of the house of mystery.

The most is made of every dramatic situation in Mr. Nicholson's novel and a play has been modelled upon it as clear and interesting as the novelist's story. To the plot as revealed in the novel, more substance has been added and this, in turn has lent weight to the drama built a stronger story for stage purposes around each character and assisted in developing to their fullest extent all the dramatic qualities of the book.</

SHORT COURSE TO OPEN IN JANUARY

Ten Weeks Instruction In Agriculture Is Opportunity Of Farm Boys

Farmer boys this week are reminded of the coming Short Course. The course will begin in January and occupy ten weeks. Last year the course occupied seven weeks. This will close the school at about the time spring's work begins. The course this year will consist of a study of soils, stock judging, farm machinery, plant diseases, and some carpentry, farm business work and English. Some incidental work will also be done with mills testing, corn, potatoes, rations and so on. The work as far as possible will be made to do with real things. There will be little book study but each student will buy a stock judging book which will be studied. All who intend to take the course should secure about a bushel of soil from some field or garden spot before the ground freezes. Get this soil from several places on the field or garden and do not go deeper than eight inches. If this soil is secured rightly a study of this soil will help to determine what treatment this soil needs in order to secure the best crop on the field or garden and the study of soils will be a real problem that will help on the farms. So be sure to dig a bushel of soil so that if you come, you will have some soil from your farm. Already several have manifested a desire to attend. Some girls may take the work. The course is open not only to farmer boys but to girls, men and women. There is no tuition charge and no charge for the use of any of the apparatus. But for the book which will have to be bought, tablet, pocket memorandum, pencil, and a few postage stamps and postal cards there will be a total expense of not more than two dollars. The work in stock judging will come at a regular hour and it will be worth the time of any one to take this course. Real cattle, horses, hogs and sheep will be judged. Farmers interested in improving their stock will find the stock judging interesting work.

In improving their stock will find the stock judging interesting work. Please send in your name to County Representative E. L. Luther. If you are going to attend, he will also be pleased to answer any inquiries about the course. About December first an announcement of the course

will be sent to all farmers and people interested.

A man runs an awful risk of starving to death up in this country. A man was seen the other day that was turning out only about 100 or 150 bushels of potatoes. Rev. B. G.

Clemens from three rows of sweet corn that reach about half the length of the home stretch on the fair

grounds only secured seventeen pounds of dried sweet corn besides having all the green corn desired by the family and distributing some to neighbors. Tomatoes, cabbage, carrots, beans, beets, cucumbers and so on in garden plots in reckless profusion. The success which some neighbors have had with gardens this summer should lead every yard holder in the city of Rhinelander to get busy and keep a good garden. It will pay. No spot is too small to be utilized. Hardly any one but can have the use of a spot ten feet square. No thing that is done will bring more real satisfaction than making things grow. Try it on a small garden spot next summer. Garden to do their best should be manured and plowed in the fall and well worked in the spring. Dig a hole now for that hot house next March. A good hot bed will return more for the pain than most any other thing. Put some good dirt away where it can be reached easily to put over the manure in the hot bed. Wonderful country this man will only get in line with it.

Now is the time to select the potato seed for next season. Select the best and highest producing hills. This is also a fine time to get out the small spots of quack grass that are in the potato field. But somehow the County Representative does not feel quite so hard towards quack grass as he did. The best and most numerous potatoes from the plots on the fair grounds came from the quack grass spots. But just the same quack grass was dug up root and branch while the potatoes were being dug.

Teachers' contracts for sale at this office.

Charles Chafee, Antone Rheaume, Irvin Gulday and Henry Price spent Sunday hunting in the vicinity of Rainbow Rapids. They bagged fifteen partridges.

PRAISES OUR FAIR

A gentleman from the southern part of Wisconsin who was in attendance at the recent Oneida county fair remarked to a New North reporter, Monday, that it was one of the best fairs he had ever seen. In this section of the state in regard to the showing of agricultural products. He was surprised at the display of potatoes, grains and grasses. That this county is destined to become a great farming country there is no doubt to be asserted. It may be added that this gentleman comes from a country where farming is the leading industry and he stated that some of the products shown at the Oneida county fair were far superior to those raised in his district.

BABY'S HANDS TIED
MOTHER TELLS HOW SAXO SALVE CONQUERED ECZEMA.

"Last fall we noticed small rough red spots coming on baby's hands. The skin was very dry and she kept scratching them until they would bleed. We lost a good deal of sleep with her. Finally we took her to the doctor and he treated her several weeks, but it kept spreading until we had to keep her little hands tied and dress and bandage them several times a day they were so sore, and we used everything we could hear of for eczema. Finally our druggist told us about Sano Salve. We tried it and one and a half tubes has entirely cured her. Her little hands are smooth and not even scarred, and we are so glad to tell others what Sano Salve has done for us." Mrs. M. Stephenson, Lebanon, Ind.

SUGGEST POTATO BAKE

Now that Oneida county is making such rapid strides forward in the production of potatoes would it not be a fitting plan to hold a potato bake in this city within another year similar to the bakes held annually in Waupaca. Such a festivity would be the means of getting the farmers and city people together and prove an effective ad for the entire vicinity.

The Waupaca potato bakes have become famous. There is no reason why such an occasion would not be successful in Oneida county—the coming potato market of northern Wisconsin.

It is the aim of this paper to be just to all classes, favor none, neither the high nor the low. All look alike to us.

Modern civilization has reached a stage where men holding high public positions can not neglect duty and be intoxicated upon the streets. If there is no way of removing them from office they should have a day of reckoning at the time of re-election.

At this term of circuit court public decency in this county has had some hope for better things. It is about time that criminals against public decency should be removed from society. More, it is time that the worst crimes against the community can not be condoned by some small fine or light punishment.

It is too plain that in the sober seizes they would persuade the case every effort of the defense was most ardent progressive. At times to get delay and continue the suit this side of the man had led me over this term of court and when to be hopeful that he might support the judge refused to grant the delay our movement and this friend affidavit of prejudice was filed a life as a former president—if he against the judge but even this did world hold fast, give us greatly add not bring about the desired results. But to commit the progressive cause to his control, to Judge Reid called in Judge Park of Stevens Point to try the case and the time set is next Wednesday.

Senator LaFollette says that Governor McGovern is entitled to the vote of every progressive in this state for his splendid record as a state official and the election of Karel, as governor would be a danger, and a menace to the progressive cause in Wisconsin. If Senator LaFollette feels this way why should not every LaFollette progressive in Wisconsin support McGovern? It is not a question of personalities it is a question of principle.

ANYTHING TO HURT MASSES

M. A. Betts, of Wabeno, was in the city this week, making friends and votes in a canvass of the city. He is going to run for the assembly on an independent ticket, his platform including the repeal of the income tax law, the Mary Ann law, revision of the primary election law, and opposition to any destructive water power bill. Mr. Betts has struck a popular ideal and he found many men here who promise him their votes.

He will get a large support as he pledges to work and vote for the repeal of the State Income tax and other objectionable laws.—Rhinelander News.

Anyone looks good to the news that repudiates laws in behalf of the masses no matter what his past record or present intellectual and social status.

INCOME TAX COST SMALL

"The net cost to the public of administering the income tax law for the entire state will be approximately \$21,000," said State Tax Commissioner Hauger today.

The cost of the former supervisor of assessment to the counties aggregated \$54,000. The entire cost of administering the income tax law during the first six months of its existence was \$45,000, and it is believed that the next six months, when the work is lighter than it was at the beginning, will be fully covered by \$40,000 more, making the total cost of administering the income tax \$85,000, so that the net cost to the public of administering the income tax law, after taking out the cost of the supervisors of assessment \$54,000, is \$21,000. This covers every

thing, salaries, additional clerks, assistants, to assessors of incomes, postage, etc. The state pays all the cost of administering the income tax law, thus relieving the counties of the former expense of \$54,000."

This is a small percentage for collecting about three millions of dollars ninety per cent of which goes directly to the local communities to reduce the local taxes on homes and personal property and when it is actually known that this income tax comes from the classes that are abundantly able to pay it, every voter should support the state republican ticket this fall against Lacey. Karel, the candidate of the special interests of both old parties.

WILL EXPOSE ROOSEVELT

Theodore Roosevelt's political record as related to his present candidacy will be thoroughly reviewed by Senator La Follette in forthcoming issues of LaFollette's Weekly Magazine. The Senator announced today that he will publish the inside facts of his candidacy for the presidential nomination, the true story of the campaign and the reason why he continued as a candidate, in five issues of his magazine beginning with October 5th. There will be a concluding article in which he will show by a searching analysis of the ex-president's record, that Roosevelt never was a progressive.

Close friends of Senator La Follette claim that these articles will prove a political revelation. His magazine will be greatly enlarged to contain the facts which he has to publish. It will be an "inside" and momentous treatment of this campaign with every curtain drawn aside to let in the light. Ultimately these articles will be republished in book form as the concluding chapters of Senator La Follette's autobiography.

In weighing the course which it was my duty to take when Roosevelt became an open and aggressive candidate, claiming the leadership of the progressive republican movement about time that criminals against public decency should be removed from society. More, it is time that the worst crimes against the community can not be condoned by some small fine or light punishment.

It is too plain that in the sober seizes they would persuade the case every effort of the defense was most ardent progressive. At times to get delay and continue the suit this side of the man had led me over this term of court and when to be hopeful that he might support the judge refused to grant the delay our movement and this friend affidavit of prejudice was filed a life as a former president—if he against the judge but even this did world hold fast, give us greatly add not bring about the desired results. But to commit the progressive cause to his control, to Judge Reid called in Judge Park of Stevens Point to try the case and the time set is next Wednesday.

Senator LaFollette says that Governor McGovern is entitled to the vote of every progressive in this state for his splendid record as a state official and the election of Karel, as governor would be a danger, and a menace to the progressive cause in Wisconsin. If Senator LaFollette feels this way why should not every LaFollette progressive in Wisconsin support McGovern? It is not a question of personalities it is a question of principle.

EVIL IN HIGH SCHOOL
Under the above caption Prof. M. V. O'Shea of the University of Wisconsin writes an editorial in the September number of the Wisconsin Journal of Education on the subject of smoking by high school students. He starts out by saying:

"Smoking is developing in our high schools at an alarming rate. It is a threatening evil of immense proportions. Can the high schools deal with it effectively? They have solved the fraternity and sorority problem; can they solve this one? Certainly the evil of smoking is vastly greater than any other with which the American high school has had to deal in recent times. To solve it means an heroic, determined, and prolonged struggle."

Professor O'Shea calls attention to the use which can be made of the anti-cigarette law and the opposition which may be encountered on the part of those financially interested and urges that educational associations should get busy and drive the evil from our high schools. An account is given of what is being done in the Racine high school to this end. There is a rule in force to the effect that no one can in any way represent the school or accept any position of honor if he is known to use tobacco at any time or place while a student in the high school. The prohibition covers all positions, class officers, speaking parts in the senior class play, positions on any athletic team, officers in literary societies, representatives of the school in debates, oratory and declamation, or any other honor or position that may be established at any time.

MYSTERY IS SOLVED

The great "mystery" in which it has been sought to envelop Gov. McGovern's course regarding national politics is solved. The Journal received information Thursday from a source that it accepts as authoritative, that Gov. Menard will vote for Theodore Roosevelt for president. As a matter of fact his friends have known all along that he will cast such a vote. They declare that all of the hullabaloo that has been raised about his "coming out" for this or that candidate has been created in the hope of making a political sensation which in some way might be turned to his disadvantage. Sifted down, they say it comes to a very insignificant matter—the vote of a single man.

Ready to Answer About Own Vote

This authority declares that while being ready to answer anybody as to how he will vote personally, he will not take up the cause of any presidential candidate. His campaign will be devoted wholly to an exposition of state issues. The Progressive Republicans feel that they have a real fight on their hands, and that they will have to put forth their greatest efforts to keep the state from going back into the hands of the reactionaries. Said one Progressive:

"I have been amused at the efforts to make something sensational out of the governor's feeling as regards the candidate for president. The Bull Moose leaders have acted as foolishly as have the Tory leaders.

They made an exhibition of themselves, in my judgment, when they declared day after day that McGovern would have to come to them and advocate Roosevelt's election, or else he would be blown out of political existence. The poor jacks knew all the time that Frank in a measure shared their feeling, but that he had sense of the proprieties enough to know that he could not remain a Republican candidate and advocate the election of a presidential candidate of the opposition.

What Tories Hoped For.

"On the other hand the Toles were disgusted because the governor did not make common cause with Roosevelt in Wisconsin. They believed that in this way he would insure his defeat for governor, and that, of course, is all they cared about."

When pressed for a more definite statement as to how the governor would make known his position, the speaker would not or could not say. Not a little excitement was caused by political circles Wednesday night by the definite statement that Gov. McGovern would take the stump for Roosevelt. This was stated with such detail that not a few were inclined to believe in the truth of it. It may be that this fact explained the reason for the definite statement that is printed in his connection. If the name of the Journal's informant could be given it would not be doubted that the truth of a matter that has exhausted so many columns of newspaper space is here given.—Milwaukee Journal.

SUPPORT THE TICKET.

Declaring that the record of Gov. McGovern gives assurance of faithful fulfillment of platform pledges, Senator Robert M. LaFollette in an editorial in LaFollette's Weekly urges support for the Wisconsin state Republican ticket. The senator again accuses Theodore Roosevelt of alliance with party bosses against the interests of the people. The editor says:

"In Wisconsin the Republican party is the instrument with which government is made to represent the will of the people.

"Time was when it served as a tool of corrupt bosses and privileged corporations. Time was when the caucus and convention operated to subvert the party from its proper function of public service to the law uses of private aggrandizement.

Roosevelt Allied With Bosses

"It was reclaimed by the voters only after a bitter struggle—a struggle in which the bosses received the powerful aid of President Roosevelt. Victory did not come with the first contest. But when, finally it did come, it was made complete. The caucus and convention system was destroyed; and in its place was substituted the direct primary which enables the voters to rule supreme. The spoils system was abolished; patronage was emasculated; the secret lobby was crushed; and other devices of misgovernment were rooted out.

The door was closed tight against the boss and his henchmen; it was opened wide to the voter and his convictions.

LA FOLLETTE FOR TICKET

Senator LaFollette will take the stump for the Republican state ticket, including Gov. McGovern, notwithstanding the governor's endorsement of Roosevelt and Johnson, who constitute the Bull Moose national ticket. Gov. McGovern on the other hand will not, when he takes the stump or at any time during the campaign, say anything more in favor of Roosevelt nor discuss national politics in any form. He will confine his campaign speeches strictly to state issues.

Two Conferences Held

The arrangement is the result of two conferences held Tuesday.

Senator LaFollette, while he will urge the re-election of Gov. McGovern will neither ignore nor condone the governor's course with regard to Roosevelt. In his campaign speeches

TRAINING SCHOOL NOTES

Ella Vanquid of Watersmeet, and Agnes Gander of Eagle River, were present Sunday with their parents, Prof. Hatch of State University, who was a school visitor this week.

Irene McLaughlin who has been attending Training school the past month, will leave this week to take up her duties as teacher in the town of Newbold.

Friday afternoon the first lecture was given before the school by the visiting nurse, Miss Kling.

This lecture was mostly introductory to the course that will be given during the year.

The chief subject of this lecture was the fundamental principles of ventilation and the effects of bad ventilation upon the children. She spoke also of other interesting subjects.

"I am glad to write my endorsement of the great remedy, Peruna. I do so most heartily."—Julia Marlowe.

Any remedy that benefits digestion strengthens the nerves.

If the digestion is impaired, the nerve centers require nutrition.

If the digestion is impaired, the nerve centers become anemic, and nervous debility is the result.

"DONT'S"

Don't carry large sums of money around with you. Hold-ups are not unheard of.

Don't hide money around the house. There are a few burglars left.

Don't be extravagant; put your money in this bank and add all you can spare to it.

Don't fail to take this advice and you will have an easy and happy old age.

Bits of News Pertaining To The Soo and Northwestern Railroads

At the present time the Northern Pacific railroad is placing 3000 new cars in the service, of this number 1500 are a new type of box cars and the remaining half are refrigerator cars. The cars are arriving daily at the head of the Lakes for distribution over the Northern Pacific territory. Some of the cars are being used in this country while others are being sent to the Pacific coast.

Harry Colton, relief agent for the Soo line at Weyauwega, disappeared one day last week and at the same time about two hundred dollars known to have been the day's receipts was reported missing. Colton is alleged to have stolen the money and made his get away. Police all over the Soo system have been notified to be on the look-out for the man. He is 27 years of age, weighs 175 pounds, has light brown hair and blue eyes.

Many of the Soo railroad trainmen on the division of the road are being sent west to help in the hand line of traffic over that section of the system.

Mrs. James R. Weddel and daughter, Nellie, will leave on Monday for Rhinelander, their new home.

Mr. Weddel has been making that place his headquarters since his run was changed. Their going from this city will be missed by a large circle of friends and acquaintances because this city has been their home so long — Gladstone Reporter.

Net earnings of the Chicago and Northwestern Railway company for the fiscal year ended June 30, 1912, were equal to 7½ per cent on the common stock issue of \$130.

The company paid 7 per cent, so that the surplus for the year carried to profit and was ½ per cent, or \$56,715. These profits compare with 8½ per cent for the year ended June 30, 1911.

The company's gross operating revenues for the year were \$22,639,531 a decrease of \$1,219,531, as compared with the previous year. Other income increased \$220,310. There was a decrease in operating expenses of \$210,864. The loss, therefore, stood against gross operating revenue.

The Chicago St. Paul, Minneapolis and Omaha, controlled by the Northwestern, paid its usual dividends but created, in doing so, a small deficit.

PRENZLOW APPEALS CASE
Julius Prenzlow the defendant in the case mentioned below is a former Rhinelander butcher and well known to all old residents. The item is from the Clintonville Tribune:

Attorney L. Cole, Julius Prenzlow, Frank and Matt Laux, F. A. Moldenhauer and J. J. Monty were at Marion, Wednesday, to appear in Justice Dooley's court. Theo. Mech of the town of Larabee, had brought action against Mr. Prenzlow, claiming that he had sold him some tainted meat one day this last summer. The day in question was hot and muggy and witnesses for each side differed as to the time of day the meat was purchased, the defense claiming that it was placed in Mr. Mech's rig and allowed to lay in the hot sun several hours before being taken home and Mr. Mech denying same. Justice Dooley found Mr. Prenzlow guilty and fined him \$5.00 and costs, but Mr. Prenzlow does not care to have this stigma resting on his name and considering the finding anything but just has appealed the case.

GREED OF THE TRUSTS
"The High Cost of Living" was a feature film shown at the Majestic Monday and Tuesday evenings. It strikingly illustrated the greediness of the trusts that control the necessities of life in their dealings with the consumers and now the working man is barely able to support his family on the small wage. It also showed how justice is blinded to the appeals of the common people by the power of gold. It was one of the strongest features ever produced at the Majestic.

AUTOS BLOCK ROADS

Complaints have been received at this office regarding owners of autos who are in the custom of blocking the country roads with their machines while they go off partridge hunting. For hours at a time automobiles have stood in the middle of roads leaving a passageway so narrow that teams are unable to pass. Not long ago two local butchers were driving into the country for the purpose of buying cattle from a farmer. An unoccupied auto blocked their path and being unable to proceed they were forced to return to this city. Being unable to get into communication with the farmer the deal was lost. One of the butchers afterward stated that he was so vexed that he would have punctured the tires of the machine, if it had not been for his respect for the law.

WEDDING AT JENNINGS

Father P. Haczaszek was at Jennings Monday and united in marriage Miss Martha Kusz and Alex Panek, both of that village. The wedding was made the occasion for a celebration at which friends and relatives from Pelican Lake, Milwaukee and other places were in attendance.

Mr. Panek, the groom, is a well to do young farmer of that part of the country.

BLACK SILK LIQUID STOVE POLISH
Keeps Your Stove
"Always Ready for Company"

A bright, clean, glossy stove is the joy and pride of every housekeeper. But it is hard to keep a more nice and shiny unless Black Silk Stove Polish is used. Here is the reason: Black Silk Stove Polish sticks right to the iron. It doesn't rub off or dust off. Its shine lasts four times longer than the shine of any other polish. You only need to polish once-fourth as often, yet your stove will be cleaner, brighter and better looking than it has been since you first bought it. Use

BLACK SILK STOVE POLISH
on your parlor stove, kitchen stove or gas stove. Get a can from your hardware or stove dealer. If you do not find it better than any other stove polish, we will refund your money. But we feel sure you will agree with the thousands of other stove women who are now using Black Silk Stove Polish and who say it is the "best stove polish ever made."

LIQUID OR PASTE
ONE QUALITY

Be sure to get the genuine Black Silk Stove Polish costs you no more than the ordinary kind. Keep your grates, registers, leaders and stove pipes bright and free from rusting by using BLACK SILK AIR-DRYING ENAMEL. Brush fire with each can of enamel only.

The BLACK SILK METAL POLISH for silverware, nickel, tinware or brass. It works quickly, easily, and leaves a brilliant surface. It has no equal for use on automobiles.

POEM BY "SHANTY BOY"

A Witty Production From The Pen Of
Billy Allen

The following poem written by Billy Allen of Wausau is presented the New North for publication by D. H. Vaughan. Mr. Allen is known throughout the Wisconsin Valley and Northern Wisconsin as "Shanty Boy" and the "lumberjack poet." His ballads of olden days in the lumber woods and on the river are heard even today in the logging camps.

Letter From a Farmer To a Rail-

way. Claim Agent

My razor back got on your track

One week ago today.

Your 29 came down the line

And slipped his life away.

You cannot blame me, the hog you see

Crowded through the cattle gate.

So kindly send a check for ten,

The debt to liquidate:

Answer By Claim Agent

Our 29 came down the line,

And killed your hog we know,

But razor backs on railroad tracks

Quite often meet with woe.

Therefore my friend we cannot send,

The check for which you pine,

Just plant the dead, place over his

head,

"Here lies a foolish swine."

—Billy Allen, Poet.

MAY IT NOT BE SO

The old settlers and hunters pre-

dict a hard winter worse than the

last with high winds and fierce snow

storms. To that end the hunters say

the squirrels have laid in a bountiful

supply of hazel nuts and the rabbits

are turning white already. The old

settlers point to the trees turning to

a bright autumn red and to the heavy

rain fall the last of August. There

is no mistake evidently, as they

share their heads in confidence and

say time will confirm the predictions.

KESTER IS GUILTY OF MANSLAUGHTER

Jury Agrees He Killed Foster Son—Is Sent To Prison For 7 Years

Malcolm R. Kester was sentenced by Judge Reid at noon today to a term of seven years in state prison. Sentence was imposed following a denial of a motion for a new trial.

After having been out three hours the jury in the case of Malcolm R. Kester, charged with killing his foster son, Everett Condon, returned a verdict of guilty of manslaughter in the first degree. The trial occupied two days and twenty witnesses testified. District Attorney Fricke had charge of the prosecution and Miller and Reevs were attorneys for the defendant. It was the most important criminal action on the present calendar and throughout the proceedings the court room was filled with spectators. The crime for which Kester was convicted was one of the most sensational and cold blooded in the history of Oneida county.

In the case of John Soprano, which was to have come up for trial Tuesday, an affidavit of prejudice was filed against the court. The case will be heard before Judge H. H. Park of Stevens Point next Wednesday.

Carl Kocomba pleaded guilty to robbery Wednesday and was sentenced to three years in the Green Bay reformatory. Kocomba was arrested three weeks ago for robbing a fellow woodsman.

James Keough, found guilty last week of indecent liberties, was sentenced by Judge Reid Tuesday to one year in the Waupun prison.

In the action of the Bundy Lumber Company vs. M. H. Taggart a verdict was found for the defendant Wednesday.

A decree of divorce was granted Tuesday in the case of Ed. Kehl vs. Lydia Kehl on the ground of non-support.

STILL AT LIBERTY

Ledusire, the convict who escaped from a Waupun prison guard at Pottawatomie, Wednesday of last week, is still at liberty. An officer of the prison was in the city several days this week working on the case.

Ledusire's escape was due to carelessness of the guard in removing the lead chain from the prisoner.

GOST PROVED POOR SAILOR.

While a man temporarily abandoned his skiff along the banks of the Chester river in Pennsylvania the other day a goat jumped into the craft. The animal chewed the shore line. The skiff swung around in the current and was some distance away when the owner returned. The goat ran from stern to prow and back again until one of its hoofs punctured the craft. The skiff quickly filled with water and sank, taking the goat with it. The goat was drowned.

AN EXCELLENT LYCEUM COURSE

FOR RHINELANDER THIS SEASON A NOTABLE ONE

A Feast of Good Things In Entertainments That Will Not Only Entertain, but Instruct and Inspire.

A feast of good things in entertainments that will not only entertain, but instruct and inspire, has been arranged for our community this season. The Lyceum course is becoming more and more a permanent institution in every town and city.

Some communities which have had a Lyceum course for years boast of a larger per cent of their young people in colleges than towns of similar size in the same localities which have not maintained a course. Many of our national problems, now considered paramount, were first presented in a forcible manner to the American people from the Lyceum and Chautauqua platforms. Much also has been done to elevate music and the entertainer's art from these platforms and to abolish or decrease the attendance upon mediocre and questionable shows.

The course of entertainments which are to appear here this season is booked through the Redpath Lyceum Bureau, the oldest and largest Lyceum in the world. The course will consist of the following attractions:

DR. HARVEY W. WILEY.

Much interest will center this year in the lecture tour of Dr. Harvey W. Wiley, former chief of the bureau of chemistry of the United States department of agriculture. His tour extends from the east to the far west, and he will carry a message vital to every fireside. When he resigned his position with the government it was stated that he would henceforth give to the people information about adulterated foods unhampered in any way by governmental red tape. He has chosen the Chautauqua and Lyceum platform from which to deliver his message to the American people. Since the announcement that he would lecture was made this season the metropolitan papers have given the matter

sufficiency of a writer who being author of fine tender and serious poems there given, had also written the famous "Off Again, On Again, Gone Again—Finis." His literary work has also appeared in the Woman's Home Companion, Success, Life, Saturday Evening Post and many other publications.

Mr. Gilligan is one of the positive and distinct personalities presented to the world through the Lyceum and the public prints. He is not a copyist, either in manner or matter, his originality being his distinctive characteristic besides his merit.

association sent out articles which appeared almost simultaneously in different cities.

Dr. Wiley's lecture subject will be "The Public Health Our National Asset." He has other subjects, but this is one which is especially recommended for the Lyceum and Chautauquas.

Dr. Wiley was born in Kent, Ind., in 1844. He became chief chemist of the United States Department of Agriculture in 1883. He was a member of the Jury of awards of the Paris exposition in 1900. United States delegate to the third International Congress of Applied Chemistry at Vienna in 1893; fourth at Paris in 1900, fifth at Berlin sixth in Rome, seventh in London. He has received other honors too numerous to mention.

STRICKLAND W. GILLIGAN.

Few literary men in American national life have received more honors than has Strickland W. Gilligan, the humorist. Not only have these honors come to him as a great literary man, but as a public speaker. Twice within the year 1912 he was a speaker on the same banquet program with President Taft. The Ohio university during the same year conferred on him an honorary degree.

Not only is Mr. Gilligan a magazine, newspaper and platform humorist, but he is a poet and philosopher. The Ladies' Home Journal a year ago contained five original poems of Gilligan with an introductory paragraph by the editor, who commented upon the ver-

THE GOVERNOR'S PARDON

"The Governor's Pardon" which is to be presented at the Opera House Monday October 7th has been wheeling about the country for years and everywhere it has been presented has had but one verdict by press and public, namely that it is one of the most entertaining and satisfying stage creations which has ever been devised. The Governor's Pardon is one of the most human and dramatic stories ever offered on the stage. The story is laid in a little eastern town where oil wells of great value are plentiful. It is here we find White Hawk, a man who stops at nothing to procure the deeds to this valuable oil. Hank Watson, is a man of big heart who falls victim to the scheme of White Hawk. Nip Turner, the country kid who always happens to get everything wrong, but seems to know it all in the finish, is a comedian of no little merit. There are also several other good characters to build the play. Each hold a responsible part.
